

ABHISHEK KUMAR

Nodejs Developer, exp: 4 yrs,
Mob : +91-9871948174, Email: kumarabhishek0947@gmail.com

EXPERIENCE

Appiness Interactive, Software Developer, Aug 2024– Feb 2025

- Worked as a backend engineer on **esports Gaming** Application,
- Created and Maintained multiple backend services
- **Optimized** api by optimizing **database queries**,
- Fixed existing bugs to give a **fault tolerant** system
- Worked on **microservice architecture** to ensure scalability for **high loads**

TravelOMedia, Nodejs Developer, Aug 2023 – Jun 2024

- Worked as a BE developer on multiple projects, adding value by implementing business logic and APIs
- Developed backend of projects from the scratch single-handedly.
- Contributed to the development of a scalable application for **authentication** and **JWT token validation**, did **CRM security profile**
- Deployed applications on **Amazon EC2** instances, **App Runner**, other hosting provider **Render**, **Vercel** and implemented **CI/CD pipeline** automation for streamlined deployment processes.
- Rewrite and redesigned shift whole application to the Expressjs framework
- Build an ecommerce single-handedly all server side code and deployed on EC2

Hardcipher, Nodejs Developer, Apr 2022 – July 2023

- Worked as a BE developer on a web application, DB design, building the backend.
- Refactored the existing application and **optimized database** queries for **improved performance** and **reduced memory usage**.
- Contributed to the development of scalable **Microservice Architecture** projects, where I was responsible for BE and DB design, development, and maintenance.
- Gathering requirement and implement all business logic, create **Rest APIs** and test them
- **Design and developed** career and admin module implement the business logic
- Collaborate with the front-end team to implement the latest development
- Provided technical guidance and mentorship to junior team members, fostering their professional growth and development.
- **Fixes bugs**, improved the logics and implementations

Janbask, Software Engineer, Feb 2021 – Mar 2022

- Worked on **edutech** and **eCommerce** domain
- Worked on projects of the companies with team coordination and collaborated with different team members
- Worked on web application, designed and built **MVC architecture**, and developed the backend
- Redesigned and refactored a number of APIs and Modules to improve performance
- Worked on **Agile Methodologies** to streamline project workflows and improve overall efficiency.

PROJECTS

- **Product Management & E-commerce** | [[GitHub Link](#)]
Role: Backend Developer, **Tech Stack:** Javascript, Nodejs, Expressjs, MongoDB
Jwt, middleware, AWS s3. The project has 4 features User, Product, Order, and Cart. Users can create accounts, add products to cart, and place orders like Flipkart, and Amazon
- **CAN-Platform**
Role: Backend Developer, **Tech Stack:** Nodejs, Nestjs, Typescript, MongoDB,
The project is a dedicated social community platform designed for cancer patients and survivors to share their experiences, provide mutual support, and connect with healthcare professionals.
- **GETYOLO-Student credit card**
Role: Backend Developer, **Tech Stack:** Nodejs, Nestjs, Typescript, MongoDB,
This is fintech project is that provide the credit card to college students credit card
- **Fanclash Classic MMF/Switch fantasy - Esports & Fantasy Gaming**
Role: Backend Developer, Tech Stack: Nodejs, Mongoddb,
JavaScript, Typescript, sails, ExpressJs, Jwt, Kafka, middleware, AWS s3.
The project is an esports gaming application based on real-life events in different sports Segments

SKILLS

- Javascript
- Nodejs
- Expressjs/Nestjs/Sailsjs
- Typescript
- Golang
- DBMS (Mongodb)/Dynmodb
- Git/Github/Gitlab
- CI/CD/Jenkins/Docker
- AWS S3/EC2/ECS
- kafka/sqs
- Render/Vercel
- Redis
- Algorithms
- Postman
- Core Java
- PostgreSQL
- Jira
- Swagger
- JWT/OAuth/MFA/Captcha

EDUCATION

Galgotias University - B.Tech

Mechanical Engineering, 6.75 CGPA
July 2015 - May 2019

Soft Skills

- Leadership
- Hard work
- Adaptable
- Open-mindedness

Achievements

- Mr. Corporate at GU campus
- Runner-up in HealthTech Hackathon (July 2017)
- Winner in Impromptu Speech Competition (Sep 2016)
